Soft Skills

- Teamwork
- Communication
- Time management
- Problem Solving
- Adaptability
- Eager to learn new technology

About Me

As a passionate Front-end Developer with a deep-seated expertise in React, I am excited about the opportunity to bring my skills to your dynamic team. My enthusiasm for staying at the forefront of technology drives me to continuously seek out new learning experiences. I am eager to apply my knowledge and adaptability to contribute to your company's success.

Experience

Creative Coder Myanmar

Junior Full-Stack Developer

July 2023 – Present

Enhancing the user experience and functionality of our e-commerce application was one of my main contributions to TechMarket's growth inside the Creative Coder network. I worked directly with the team, utilizing technologies like Laravel, Inertia.js, and React, to provide reliable solutions. A dependable and manageable codebase was secured by my concentration on backend development. In order to preserve the stability and dependability of an application, I also use Cypress to create test cases.

NGS Developer Group

Front-End-Developer (React)

June 2022 – Feb-2023

I actively contributed to the development of the NGS Dashboard and Shwe Real Estate project, utilizing my skills in React, SCSS, MUI, and Redux to deliver a high-quality product
